# INTRODUCTION

---

## NEW LONDON HOSPITAL

OUR MISSION: *New London Hospital is dedicated to providing quality primary care and specialized clinical services in a caring environment.*

New London Hospital is a 25-bed rural community hospital with a 58-bed long-term extended care center. In April of 2003 we became a Critical Access Hospital. The beds may be used for acute care as well as swing beds (for patients who need hospitalization, but are not considered acute care patients).

New London Hospital is a member of the New England Alliance for Health (NEAH). NEAH is a consortium of 11 member organizations in Vermont, New Hampshire and Massachusetts. It offers member services in the areas of quality improvement, financial planning, benchmarking, materials management, pharmacy services, education and development for professional staff and trustees, collaborative regional health planning, and access to property and casualty insurance.

Collaborative agreements with the Dartmouth-Hitchcock Medical Center and Concord Hospital help us meet the needs of those patients who require a tertiary care setting. These agreements also allow us to bring many services to our patients and the community that are usually only found in larger hospitals.

## WILLIAM P. CLOUGH EXTENDED CARE CENTER

At the William P. Clough Extended Care Center at New London Hospital, we are committed to high standards of care. We are small enough to know all of the residents and their families. Our skilled care program is designed as a transition program for patients who are able to return to their home or assisted care living situations. A group of three hospitalists (medical doctors with a special interest in geriatrics) provides on-site care to the residents five days a week. The facility has large spacious rooms with wide hallways and ramps for easy wheelchair access. Located in the same building as New London Hospital, emergency medical care is literally only seconds away. From the linen tablecloths in the dining room to daily one-on-one companionship and social activities, we make the William P. Clough Extended Care Center like home. The residents don't live in our facility. We work in their home.

## PHYSICIAN PRACTICES

Physician Practices are located in New London Hospital. Services offered range from Primary Care to General Surgery, Orthopedics, Gynecology, Ophthalmology, Audiology, Dermatology, Urology, Podiatry, Neurological and Neurosurgical Services. Pediatrics Services are provided in the Medical Associates Building on the New London Hospital campus.

## NEWPORT HEALTH CENTER

Located in Newport, the Newport Health Center was completely renovated and expanded in June of 2003. The center offers Primary Care, Gynecology, Podiatry, Pediatrics, Occupational Health, Laboratory, X-ray, Mammography, Physical Therapy, and Sports Medicine services. The Center has extended hours on Mondays and Wednesdays for evening appointments.

## NEW LONDON FAMILY CARE CENTER AT GRANTHAM

Designed for the residents of Grantham and the surrounding communities, the New London Family Care Center at Grantham opened in November 2005. It is located in Sawyer Brook Plaza at 120 Route 10, Grantham, and provides full service health care with a family focus. A family practice physician or a physician's assistant is on site four days a week and the office is staffed five days a week from 8 am - 5 pm, to provide full time access for appointments, copies of records, prescription refills, etc. and to facilitate appointments in the New London office if necessary for acute visits.

## NEW LONDON PEDIATRIC CARE CENTER

Located in the Medical Associates Building, the New London Pediatric Care Center (NLPCC) is a patient-focused medical practice specializing in pediatrics and adolescent health care for the Dartmouth-Lake Sunapee Region in collaboration with Children's Hospital at Dartmouth (CHaD). The goal of NLPCC is to provide high quality health care with an emphasis on preventive and primary care services. Pediatricians specialize in the sick and well care of children of any age, from infants to college.

## NEW LONDON HOSPITAL SPORTS MEDICINE AND PHYSICAL REHABILITATION CENTER

The Sports Medicine and Physical Rehabilitation Centers provide a wide range of services in coordination with other programs in the Lake Sunapee region. Services and programs are for people of all ages with a wide variety of conditions. State-of-the-art therapy and specialized services are provided.

Rehabilitation services are located at New London Hospital and Newport Health Center in Newport.

# EMERGENCY SERVICES

## EMERGENCY DEPARTMENT SERVICES

New London Hospital's Emergency Department is staffed 24 hours a day, seven days a week by physicians and nurses who are experienced in emergency medical care. The three-bed trauma room and five private exam rooms located in the upper level of the hospital are equipped to handle complex trauma, surgical and medical care, as well as routine emergencies. The emergency care services at New London Hospital work collaboratively with other facilities to ensure continuum of care for patients requiring transfer to a tertiary care hospital.

## AMBULANCE SERVICES

The New London Hospital Ambulance Service is staffed 24 hours a day, seven days a week by Emergency Medical Technicians (EMTs), both intermediate and paramedic levels. The paramedics also carry certification in Advanced Cardiovascular Life Support.

### SERVING THE SEVEN AREA TOWNS OF:

New London, Wilmot, Grantham, Springfield, Sutton, Newbury, and Sunapee. These towns annually support our ambulance services.

# MEDICAL SERVICES

## PRIMARY CARE

### PRIMARY CARE

Our primary care physicians (PCP's) are located at New London Hospital, 273 County Road; in Newport at the Newport Health Center, 11 John Stark Highway; and in Grantham at the New London Family Care Center at Grantham, 120 Route 10. PCP's specialize in either Internal Medicine or Family Practice Medicine. Physicians who specialize in Family Practice have received training in treating and caring for the entire family from pediatrics to geriatrics. Internal Medicine physicians specialize in adult medicine. The primary care physician services provide high quality healthcare with an emphasis on preventive and primary care services. New London Hospital's primary care service also has the ability to refer patients to specialists or diagnostic testing.

New London Physician Practices in New London and Newport offer the following services:

- Routine health care for all ages
- Sports physicals
- Hearing screenings
- Minor orthopedic problems
- Complete child care, including routine visits, immunizations and acute illnesses
- Women's health care, including pap smears, and gynecological problems
- Minor procedures including removal of lesions and wart removal
- Occupational health screening including DOT physicals
- Men's health care, including prostate screening
- Nutrition counseling
- Allergy shots
- Laboratory services
- X-ray
- Cancer screening
- EKG's
- Mammography
- Physical and occupational therapy

**COUMADIN SERVICES**

Coumadin Services are designed to help patients manage anticoagulation medication. Once Coumadin is prescribed, it is very important to regularly check the medication's effect on the blood's clotting tendency. Offered in New London and at the Newport Health Center, the program is staffed by an experienced Registered Nurse Clinician who obtains International Normalized Ratio (INR) measurements using a fast and simple fingerstick method. Results are immediate, and any change of Coumadin dosage is made on the spot. Data from each visit including INR, patient assessment and dosage changes are sent to the referring physician the same day.

**COUMADIN SERVICES AT:****NEW LONDON HOSPITAL 526-5058**

273 County Road, New London

Open: 8:00 am - 4:30 pm Monday through Friday

**COUMADIN SERVICES AT:****NEWPORT HEALTH CENTER 863-4100**

11 John Stark Highway, Newport

Open: Every Thursday 9:00 am - 4:30 pm

**DENTISTRY**

Consultations for dentistry are in conjunction with Dr. Gutsell at his New London office.

## PEDIATRICS

### PEDIATRICS

Located in the Medical Associates Building at New London Hospital, the New London Pediatric Care Center (NLPCC) is a patient-focused medical practice specializing in pediatrics and adolescent health care for the Dartmouth-Lake Sunapee Region in collaboration with Children's Hospital at Dartmouth (CHaD). Pediatrics services are also offered at Newport Heath Center. The goal of NLPCC is to provide high quality health care with an emphasis on preventive and primary care services. Pediatricians specialize in the sick and well care of children of any age, from infants to college. The following is a partial list of services offered:

- Allergy shots
- Lab testing (mono, strep, etc.)
- Reach Out and Read
- Routine health care for all ages, up to age 24
- Laboratory and hearing/vision screening services
- Sports physicals and minor orthopedic problems
- Pediatric care, including routine visits, immunizations and acute illnesses
- Acne
- Pap smears and gynecological exams
- ADHD evaluation and treatment

### WOMEN'S HEALTH

New London Hospital offers comprehensive gynecological services for women. It also provides special care in diseases of the female reproductive system, diagnostic and therapeutic care of patients with abnormal PAP smears, and care for patients with chronic pelvic pain.

Pre- and postnatal services (available only in New London) are offered through an affiliation with Dartmouth-Hitchcock Medical Center. Certified nurse midwives from DHMC offer pre- and postnatal care in New London with a seamless transition to labor and delivery at DHMC.

Medical gynecological services include:

- Adolescent gynecology/birth control options/pregnancy screening
- Assess abnormal bleeding
- Contraception options
- Essure hystroscopic sterilization
- Infertility evaluation
- Preventive and diagnostic services
- Hormone Replacement Therapy (HRT)
- Pregnancy screening (pre and postnatal services)
- Evaluation, diagnosis and treatment of Sexually Transmitted Diseases (STDs)
- Evaluation of pre-menopause, menopause and post-menopause
- Evaluation of stress urinary incontinence and urodynamic studies
- Breast cancer screening
- Endometrial Ablations
- Evaluation of abnormal PAP smears
- Pelvic relaxation and prolapse
- Routine PAP smears

Surgical gynecological services include:

- D&C's
- Ovarian cysts
- Treatment of stress urinary incontinence
- Loop Electrocautery Excision Procedure (LEEP)
- Hysterectomies
- Other gynecological surgeries

603-526-5162

The department is staffed with Respiratory Care Practitioner (RCP) licensed respiratory therapists, who have passed the Certified Respiratory Therapy Technician (CRTT) or Registered Respiratory Therapist (RRT) examination by the National Board for Respiratory Care, as well as a registered diagnostic cardiac sonographer who is American Registry of Diagnostic Medical Sonographers (ARDMS) certified.

Services include:

- Chest physiotherapy
- Electrocardiograms (EKG's)
- Oxygenation evaluations
- Stress Echo Cardiogram
- Pulmonary Function Testing (PFT's)
- Assessment and support of mechanical ventilation
- Administration of aerosol medications by a variety of devices
- Echocardiograms
- Holter/loop/cardiac event monitoring
- Pulmonary disorders
- Cardiac stress testing

**DIAGNOSTIC IMAGING AND RADIOLOGY**

603-526-5249

The Radiology Department, in conjunction with Valley Radiologists Professional Association, offers routine radiology services, digital mammography, ultrasonography, MRI, 16-slice CT Scan, bone density analysis, and Digital Fluoroscopy. We offer radiological services at New London Hospital and at the Newport Health Center.

**DIGITAL MAMMOGRAPHY**

New London Hospital was the first in the State of New Hampshire to offer digital mammography. Digital mammography is accurate, fast, and offers greater flexibility and magnification for women with denser breast tissue. Breast images produced through computerization rather than X-ray film are clear, easy to read, and can be viewed within seconds. NLH also uses I-CAD which is a computer aided detection system. This provides a computerized analysis of a patient's mammogram to supplement the radiologist's interpretation.

Our technologists are all registered radiologic technologists certified in mammography, and all films are interpreted by Board Certified Radiologists.

We are an American College of Radiology accredited mammography site.

**ULTRASONOGRAPHY**

Our equipment is an ATL HDI3000 Ultrasound machine. All technologists are registered diagnostic medical sonographers.

**MAGNETIC RESONANCE IMAGING (M.R.I.)**

The 1.5T MRI services are available one day every week and two days every other week.

**COMPUTED TOMOGRAPHY (C.T. SCAN)**

24 hours a day, 7 days a week our state-of-the-art High Speed 16-slice Scanner is available for a wide range of imaging procedures. All technologists are registered radiologic technologists.

# ANCILLARY SERVICES

## LABORATORY/PATHOLOGY

### LABORATORY

New London Hospital's Baker Memorial Laboratory is a full service lab providing on site testing for the majority of all tests ordered by area physicians. The technical staff are certified by the American Society of Clinical Pathologists or its equivalent. The Lab is accredited by the College of American Pathologists. Unusual or low volume tests are sent to one of several outside reference labs.

Emergency laboratory services are available 24 hours per day.

### LABORATORY SITES:

#### NEW LONDON HOSPITAL 526-5305

273 County Road, New London

Open: 7:00 am – 5:00 pm Monday through Friday

7:00 am – 12:00 noon Saturday

Closed Sunday

#### NEWPORT HEALTH CENTER 863-4100

11 John Stark Highway, Newport

Open: 8:00 am–4:30 pm Monday through Friday (by appointment)

### PATHOLOGY

The pathology service offers a complete range of anatomic and clinical diagnostic and consultation services. Cytologic examination of specimens from all body sites and tissue types are routinely performed.

### **NUTRITION COUNSELING**

Nutrition counseling and education is available at New London Hospital Practices and the Newport Health Center. Our dietitians, Sarah Anderson RD, LD and Elke Melody, RD, LD are registered by the Commission on Dietetic Registration and licensed by the State of New Hampshire. Their specialties include weight management, chronic disease management, diabetes, pediatrics, sports nutrition, and wellness. They work with patients of all ages in a family-centered counseling environment. For more information, call 603-526-5229.

### **REHABILITATION SERVICES**

Rehabilitation plays a vital role in restoring a patient's independence in daily living, mobility and self-confidence. Our goal is to give all of our patients individualized care for a safe, effective recovery in the shortest period of time. Rehabilitation services are offered in New London and at the Newport Health Center.

Rehabilitation Services include the following:

- Aquatic therapy
- Back-to-golf program
- Craniosacral therapy
- Functional Capacity Evaluations
- Incontinence program
- Neurological disorders treatment
- Orthopedics
- Physical therapy
- Splint fabrication
- Student program
- Arthritis treatment
- Compression garment measurements
- Ergonomics
- Gait disturbance evaluation
- Lymphodema
- Occupational therapy (hands, wrists and elbows)
- Orthotic fabrications (temporary and permanent)
- Post surgical therapy
- Sports medicine clinic
- Speech therapy (language and swallowing disorders)

An athletic trainer is located at Kearsarge Regional High School.

**INPATIENT CARE:** Rehabilitation Services are available seven days per week, with the patient being seen within 24 hours of a written request by the physician. The state-of-the-art therapy services include physical, occupational and speech therapies.

**OUTPATIENT CARE:** Sports Medicine and Rehabilitation Services are available in New London at the New London Hospital and at the Newport Health Center in Newport, with Aquatic Therapy available at the Mountain Edge Resort in Sunapee.

### **SPORTS MEDICINE AND PHYSICAL REHABILITATION CENTER**

273 County Road, New London, NH • 526-5256

### **NEWPORT HEALTH CENTER**

11 John Stark Highway, Newport, NH • 863-8936

### **SLEEP DISORDERS CENTER**

The Sleep Disorders Center at New London Hospital provides sleep study services for inpatient and outpatient populations.

All patients are assessed using pulse oximetry, EKG and other testing mechanisms. Sleep studies are interpreted by Donald Ayres, MD, Medical Director of the Sleep Disorders Center.

# INPATIENT SERVICES

## INPATIENT CARE

### INPATIENT CARE

New London Hospital is committed to excellent patient care, recognizing the special relationship between nurses, providers and their patients.

### HOSPITALIST

A hospitalist is an internal medicine physician who specializes in the care of patients in the acute care setting. New London Hospital began a hospitalist program in August of 2004 designed to improve care for patients admitted to the hospital, as well as improve care for patients in the outpatient setting. Upon admission to the hospital as a medical patient, the hospitalist will manage all aspects of the hospitalization, including admission and discharge, ordering tests, lab work and coordinate care with specialists as needed. The hospitalist communicates care plans with the patient, the family and the primary care physician. The surgical specialists utilize the hospitalist for consultations on medical issues. The surgical specialist utilize the hospitalist for consultations on medical issues.

All of the primary care physicians (PCP's) of the New London Physician Practices group and the Newport Health Center participate in the hospitalist program.

**MEDICAL-SURGICAL UNIT**

Our Medical-Surgical Unit provides both acute and skilled levels of care. A team of professionals and support staff provide personalized care for the patient and his/her family while they are in the hospital. Physicians and nurses collaborate daily on treatment and discharge plans working toward a speedy recovery.

**SPECIALIZED CARE UNIT (SCU)**

The four-bed Specialized Care Unit is equipped with sophisticated monitoring systems and staffed with nurses who are certified in advanced life support and critical care nursing. The Special Care Unit provides constant monitoring and personalized treatment for patients who are critically ill.

**SKILLED/SWING BEDS**

Skilled/Swing Beds allow patients who need a short period of skilled nursing or rehabilitation services following discharge from an acute care setting to stay at New London Hospital, rather than being moved to an out-of-town nursing facility. Some patients may be transferred from another acute care facility for a short recovery period prior to returning to their home.

# ELDERCARE SERVICES

## INPATIENT CARE/WILLIAM P. CLOUGH EXTENDED CARE CENTER

### SOCIAL SERVICES

This department provides Social Services to the inpatient population, ambulatory setting, and extended care residents. Collaborating with the health care team, patients, their families and the community, Social Services provides a continuity of care that promotes a smooth transition from the hospital to home or elder care setting.

### WILLIAM P. CLOUGH EXTENDED CARE CENTER

"The residents don't live in our facility. We work in their home." More than words, these thoughts reflect the way we work at The William P. Clough Extended Care Center of New London Hospital. Our 58-bed facility is small and our staff-to-resident ratio is higher than many other elder care facilities. A group of three hospitalists (medical doctors with a special interest in geriatrics) provides on-site care to the residents five days a week. There is never a lengthy ambulance ride to a distant hospital or confusion due to unavailable medical records, as emergent care with the New London Hospital Emergency Services is in the same building.

### SKILLED CARE PROGRAM

The Skilled Care Program is designed as a transitional program for patients following surgery or treatment in the hospital. Fifty-six percent of our skilled care residents are able to return to their home environment.

### PERSONALIZED HEALTH CARE SERVICES

- Highly skilled physicians on site
- Immediate access to a pharmacy
- Physical, occupational and speech therapy
- Immediate access to a full-service hospital
- Personalized exercises
- Special meals

### MEANINGFUL AND STIMULATING SOCIAL INTERACTION

- Arts and crafts
- Intergenerational programs
- Music
- Games to stimulate residents both mentally and physically
- Dance recitals
- Engaging social activities
- Outings

### ATTRACTIVE ENVIRONMENT

- An outdoor garden area, complete with a large canopy
- Complete hairdressing and barber services
- Food is individually prepared and attractively presented
- Linen tablecloths, appropriate lighting and dinner music
- Large spacious rooms with wide hallways and ramps for easy wheelchair access
- Specialized, Personalized Attention (SPA) Program includes:
  - \* Aromatherapy
  - \* Massage
  - \* Snoozezen—part of a relaxing and therapeutic environment produced by varying levels of sensory stimulation, including lighting, soft music and familiar smells
- Three areas for social activities and dining

### CHILD CARE

#### ABC'S CHILD CARE CENTER

603-526-5242

The child care center at New London Hospital provides care for children ages six weeks to five years old. It is open to all employees and community children on a space-available basis.

HOURS: Monday through Friday, 6:45 am to 5:30 pm

### COMMUNITY OUTREACH AND SUPPORT PROGRAMS

#### ROCK DENTAL CLINIC

603-526-5270

Mobile dental health screening and services are provided by a Registered Dental Hygienist serving students K-5 in the Kearsarge, Newport, Sunapee, and Goshen-Lempster elementary schools.

#### TIGER TREATMENT CENTER

603-863-2414

A comprehensive primary and preventive health care center located at the Newport Middle/High School (NMHS). Staffed by providers from the Newport Health Center five days per week, the Center's services include:

- Alcohol and substance abuse counseling
- Eating difficulties support group
- Exercise programs
- Mental health therapists
- Weight loss

#### MEDICATION ASSISTANCE PROGRAM

New London – 603-526-5509

Newport – 603-863-4100

A program designed to obtain free or reduced cost prescription medications by applying to pharmaceutical companies that offer free prescriptions to eligible patients. Currently coordinated through the New London Hospital Physician Practices and the Newport Health Center.

# COMMUNITY SERVICES

## EDUCATIONAL AND WELLNESS PROGRAMS/EMERGENCY MEDICAL SERVICES EDUCATION

### EDUCATION AND WELLNESS PROGRAMS

#### GENERAL HEALTH AND WELLNESS PROGRAMS

603-526-5267

New London Hospital serves as a community resource for general information and in-depth education on a wide range of health related topics including:

- AARP 55 alive safe driving
- Emergency medical services courses for:
  - \* Safety service providers
  - \* General public
  - \* First aid/CPR
- Safe Sitter

Education tours and speakers are also available.

#### CPR/FIRST AID COURSES

603-526-5501

- ACLS
- BLS (Basic Life Support)
- CPR for family and friends
- CPR recertification
- Heart saver CPR
- Pediatric and infant CPR

Call for current schedule or check on line.

#### SPEAKER'S BUREAU

603-526-5270

A complimentary service provided to share health related information and fill the program needs of area clubs and organizations.

### EMERGENCY MEDICAL SERVICES EDUCATION

603-526-5501

New London Hospital is the Medical Resource Hospital for a large group of paid and volunteer medical professionals in the New London/Lake Sunapee Region of New Hampshire and provides education and support to the EMS squads in the local area.

Check online for a current list of EMS courses.

## **FINANCIAL ASSISTANCE**

603-526-5278

A mission-based program for reduced or free care, based on a scale of federal income guidelines and lack of any source of health insurance. New London Hospital also participates in the New Hampshire Health Access Network, a group of hospitals, doctors and other health care providers in New Hampshire that work together to help children and adults when they can't afford the health care they need.

Please see the Medication Assistance Program above for information on financial assistance for prescription medications.

## **VOLUNTEER SERVICES**

603-526-5265

The Volunteer Services Department places volunteers in clinical and administrative areas to assist patients and staff.

## **FRIENDS OF NEW LONDON HOSPITAL**

603-526-5265

Friends of New London Hospital is a volunteer group dedicated to supporting New London Hospital primarily through active service and philanthropy.
